I. PROPOSED A SHARE OFFERING

At the Meeting, the Board resolved to submit to the EGM, the Domestic Shareholders' Class Meeting and the H Shareholders' Class Meeting, respectively, for consideration and approval by the Shareholders by way of a special resolution a proposal for the Proposed A Share Offering. The Proposed A Share Offering will be made in accordance with the Company Law of the PRC, the Securities Law of the PRC, the Measures for the Administration of Initial Public Offerings and Listing of Shares (《首次公開發行股票並上市管理辦法》), the Opinions on Further Promoting the IPO System Reform (《關於進一步推進新股發行體制改革的意見》), the Measures for the Administration of Issue of Securities and Underwriting (《證券發行與承銷管理辦法》) and the Measures for Strengthening the Regulation and Supervision on Issue of New Shares (《關於加強新股發行監管的措施》) and other relevant laws and regulations of the PRC. Details of the proposal for the Proposed A Share Offering are set out as follows:

A. Type of Securities Being Offered

A Shares

B. Par Value

RMB1.00 per Share

C. Stock Exchange for the Proposed Listing of the A Shares

Shanghai Stock Exchange

D. Offering Size

Not more than 8,115,500 A Shares and not more than 10% of the Company's entire issued capital upon completion of the Proposed A Share Offering, and the final number will be determined by the Board according to the authorization obtained from the Shareholders, taking into consideration the Company's capital requirements and market demand and after consultation with the sponsor(s) (the lead underwriter(s)). The number of A Shares to be issued will be adjusted accordingly upon the occurrence of ex-rights events, such as stock dividend, transferring of capital reserve into capital, etc.

E. Target Subscribers

The target subscribers of the A Shares are inquiring subscribers who satisfy the relevant qualification requirements of the CSRC and other vetting authorities, as well as individuals, legal persons and other institutional investors who have opened A share securities accounts with China Securities Depository and Clearing Corporation Limited (excluding those prohibited by the relevant PRC laws and regulations).

The Company will procure the connected persons of the Company not to subscribe for the A Shares and will ensure that none of the subscribers of the A Shares is a connected person of the Company. If any of the subscribers of the Proposed A Share Offering is a connected person of the Company, the Company will take all reasonable measures to comply with the relevant listing rules of the stock exchanges on which the Shares are listed.

F. Method of Offering

An offering to public investors online at a fixed price based on the market capitalization, or other offering methods approved by the CSRC.

G. Pricing Methodology

Taking into full account the conditions of the capital markets and the Company at the time of the Proposed A Share Offering, the issue price of the A Shares will be fixed directly through negotiations between the lead underwriter(s) and the Board according to the authorization by the Shareholders, or by any other legally practicable methods.

Pursuant to the Company Law of the PRC, the issuance price of shares can be par value or higher than the par value, however, not less than the par value. The nominal value of the A Shares is currently expected to be RMB1.00 per A Share, same as that of the H Shares, and thus the Company currently estimates that the issue price of the A Shares shall not be less than RMB1.00 per A Share.

Pursuant to the Measures for the Administration of Issue of Securities and Underwriting, the issuance price of the initial public offering of shares can be fixed through making enquiries with offline investors, or fixed directly through negotiations between the lead underwriter(s) and the issuer, or by any other legally practicable methods. If the number of shares of the initial public offering is below 20 million shares (inclusive) and there is no plan for transfer of existing shares in issue, the issue price shall be confirmed by means of direct pricing. The issuer and the lead underwriter shall disclose the pricing methodology of the issuance of shares in the letter of intent (or prospectus) and the announcement of the issuance. If an initial public offering of the shares is to be conducted by means of inquisitive pricing, then once the offline investors have provided their quotations, the issuer and the lead underwriter(s) shall omit the portion of the highest quotations of the total subscription amount while the omitted portion shall not be less than 10% of the total subscription amount by the offline investors, and that the issuance price shall then be determined by the issuer and the lead underwriter(s) based on the remaining quotations and the remaining subscription amount. The issuer and the lead underwriter(s) can negotiate and determine the conditions of investors entitled to participate in the price consultation, effective quotation conditions, placing principles and placing methods, and select placing targets among the eligible offline investors under the previously confirmed placing principles. If the P/E ratio of the issue price (or the upper limit of the range of the issue price) announced by issuers and lead underwriters under initial public offerings of shares is higher than the average P/E ratio in secondary markets of public companies in the same industry, such issuers and lead underwriters should expressly remind the investors in the special announcement on investment risks of the risk of loss suffered from investors resulted by the potential and relatively high appraised value of such pricing while making disclosure on the issue price.

The Measures for the Administration of Issue of Securities and Underwriting and other regulations did not impose requirements on the upper limit of the issue price.

The factors to be considered by the Board and lead underwriter(s) in setting the issue price are as follows:

- (i) the applicable legal requirements of and guidelines on the pricing mechanism for A share offerings as issued by the CSRC from time to time;
- (ii) the market conditions of the A share offering market, including or as otherwise reflected by the interest in subscription of shares, including purchase price and number of shares to be subscribed, as indicated by investors during the process of investors roadshow and pricing enquiries by the Company and the lead underwriter(s); and
- (iii) the valuation of other listed companies in the same or similar industries.

H. Method of Underwriting

The underwriting syndicate led by the lead underwriter(s) will underwrite the offering by way of standby commitment.

I. Conversion of the Form of the Company

The Company will apply for conversion into a joint stock company with both domestic and overseas listed Shares.

J. Valid Period of the Resolution

The valid period of the resolution is 12 months from the date when this proposal is considered and approved by the Shareholders at the EGM, the Domestic Shareholders' Class Meeting and the H Shareholders' Class meeting.
